

Essential Workplace Solutions

LEADING OUR COMMUNITY BACK TO WORK

Clinical Monitoring

As stated by the Ohio Department of Health (ODH), as employees return to work, they are required to perform a daily symptom assessment. This includes taking a temperature with a thermometer and monitoring for a fever. They will also be asked to report any symptoms of coughing or trouble breathing.

Our services offer a variety of options to help you work through this mandate and record the proper information.

STAFF SCREENINGS

Option
A

Employer Led Process

Option
B

Hybrid management between Essential Workplace Solutions and employer

Option
C
